ABOUT US

The Institute of Technology, University of Moratuwa (ITUM) is Sri Lanka's premier institution for technological education, offering the National Diploma in Technology (NDT) a nationally recognized, practice-oriented programme designed to develop technically competent, adaptable, and industry-ready professionals.

With more than five decades of experience in technological education, the NDT programme has established itself as a national benchmark for producing highly skilled professionals who contribute across Sri Lanka's engineering, technology, manufacturing, and service sectors. Conducted entirely in English, the programme combines two years of structured academic education with a full year of industrial training, providing students with a strong foundation in theory, practical competence, and workplace experience.

ITUM admits approximately 800 students annually across ten specialized disciplines. The curriculum progressively develops students from foundational scientific and technological knowledge in the early stages to specialized technical expertise in their chosen fields. This academic preparation is complemented by a structured industrial training programme spanning two semesters, where students work within authentic professional environments and apply their knowledge to real-world challenges.

**TWO SEMESTERS - ONE YEAR TRAINING - 800
STUDENTS - UGC PROGRAMME - DIVERSE DECIPLINES**

ITUM CAREER FAIR -2026

10th - 12th November

ITUM CAREER FAIR 2026

The Institute of Technology, University of Moratuwa (ITUM) proudly presents Career Fair 2026, bringing together industry and the next generation of technically skilled professionals.

With students and graduates representing ten engineering and technology disciplines, ITUM Career Fair provides organizations with a valuable opportunity to connect with a diverse pool of talented, practically trained, and industry-ready candidates.

More than a recruitment event, Career Fair 2026 is a platform for meaningful industry engagement, professional networking, and long-term collaboration. We warmly invite your organization to join us in connecting talent with opportunity and shaping the future of Sri Lanka's technological workforce.

We look forward to welcoming you to ITUM Career Fair 2026.

OUR DIVISIONS AND STUDENT INTAKE

MESSAGE FROM THE DIRECTOR

The Institute of Technology, University of Moratuwa (ITUM) continues to develop industry-ready professionals through the National Diploma in Technology (NDT), combining strong academic foundations with practical and industrial training.

The ITUM Career Fair 2026 provides industry with a direct opportunity to connect with talented, technically trained students and graduates across ten engineering and technology disciplines. It serves as a platform for recruitment, professional engagement, and building lasting partnerships between ITUM and industry.

We warmly invite your organization to participate in ITUM Career Fair 2026 and connect with the next generation of technologists. Your involvement will support our students' transition into meaningful careers while giving your organization access to emerging technical talent.

We look forward to welcoming you to ITUM Career Fair 2026 and building stronger connections between talent, industry, and opportunity.

OPPORTUNITY → →

ITUM Career Fair 2026 offers industry training providers a unique opportunity to reach a large pool of technically trained and career-focused students from ten engineering and technology disciplines, all in one place.

For training providers, it is a powerful opportunity to build visibility, engage future professionals, and establish long-term relationships with the next generation of technologists.

WHY PARTNER WITH US

Partnering with ITUM Career Fair 2026 gives your organization direct access to a diverse pool of technically skilled, practically trained, and career-ready students and graduates from across ten engineering and technology disciplines.

Our partnership goes beyond recruitment. It creates opportunities to discover emerging talent, build your employer brand, engage with future professionals, and develop a sustainable talent pipeline aligned with your organization's future needs.

YOUR PARTNERSHIP OFFERS

- Direct Access to Emerging Talent

- Access to Specialized Talent from various disciplines

- Meaningful Student Engagement

- Stronger Employer Visibility

- Strengthen Industry-Academia Connections

- Build Your Future Talent Pipeline
